

Building Relationships

The best way for us to build a lasting relationship with you our customer, is to give you exactly the product you want, when you want it!

Fits Global Sourcing

- Founded in 1993 as a supplier to the promotional industry specializing in apparel items such as polo shirts, woven shirts, aprons, jackets, knives, and more.
- We then developed and grew a successful stock line of uniform items such as chef apparel, medical apparel, aprons, vests, cobbler shoes, while continuing as a custom supplier for special projects.
- In recent years, Fits has become a leading importer of custom apparel, and other products such as neon clocks, shop stools, work gloves, and several safety items.
- Our experience in the import business spans over 30 years with 40 years in the promotional industry. We built a vast network of manufacturing resources and joint ventures to be able to deliver outstanding and compliant products at very competitive prices.
- Our Logistics expertise enables us to deliver on time, no matter the deadline!

1. As your trusted and approved supplier partner, consider us an extension of your sales and marketing team, working alongside you to develop the best creative solutions for each project. We genuinely know and understand most of the challenges you might deal with. You can count on us to deliver the results you and your clients expect.

2. WE BRING THE WORLD TO YOU!

WE HAVE THE PASSPORTS TO PROVE IT

Overseas manufacturing procedures and practices are much different from domestic operations. With decades of hands-on experience in both overseas importing and manufacturing, we have developed a detailed multi-step process that we follow to complete every order. This provides you with a trouble-free import experience.

IT'S NO SECRET - WE KEEP THE BEST COMPANY

At Fits Group Global Sourcing we utilize several of the same factories that produce for large U.S. and European retailers. These retailers have long known the huge benefits in cost and quality by having their products produced overseas. Now, you too, can experience this same value and quality, at much lower costs!

WE MEET YOUR DEADLINES

Overseas sourcing presents many unique challenges due to several factors that we are experienced with. Therefore, we utilize the latest technologies and advancements in global communications and shipping. This takes the "distance" out of direct overseas sourcing by working within a specified production timeline for each project.

WE ELIMINATE COMPLICATIONS

We hate surprises as much as you. By implementing our multi-step process, we make ordering and receiving your order as effortless and surprise-free as possible. We guide you through the entire process then take great pains to assure that the product and delivery are on time, to your quality standards.

DETAILS, DETAILS, DETAILS!

Getting the product right means paying very close attention to ALL the details. We supply pre-production samples for client and inspector approval before manufacturing your final product. These samples represent the exact product you will receive after the production run. We provide three pre-production samples:

- One sample for you to show your customer
- One sample for our FITS team
- One sample for our independent inspectors so they have an exact guide with specification sheets to guarantee your order is 100% correct. If there is a problem, it gets fixed before leaving the factory.

Every order is 100% customer satisfaction guaranteed.
